# Black & white printing: reliable, efficient, fast.

**Today's world is dominated by the wide array of colours that form it. But a large amount of office work calls for black & white – and it could be done with much greater efficiency and productivity. Take the new A3 b/w P-6040DN system for example. It processes high volumes of delivery notes, invoices or even labels at a speed of 60 A4 pages per minute. It also has a paper capacity of up to 7,150 sheets and prints at a resolution of 1,200 x 1,200 dpi, ensuring consistently high-quality, crystal-clear prints**

## P-6040DN

A3

**HIGHLIGHTS:**

**High performance:** The P-6040DN's high print resolution, fast print rate of 60 A4 pages per minute, 9 inch touch panel for simple operation, USB port, 320 GB hard disk, 4,000 sheets optional finisher, maximum paper capacity of 7,150 sheets and capability to process paper in sizes up to SRA3 format mean its more than capable for even large complex jobs

**Robust:** The system has a long service life and easily processes a wide range of different print media and paper thicknesses. It has fewer moving parts as it only prints in monochrome. This makes it a sturdy and stable workhorse you can always rely on.

**Consistent:** Thanks to its high print resolution and optimised toner, the system reliably delivers a consistently high print quality. Its vast paper capacity guarantees uninterrupted production runs. Its easy-to-use, large touch panel keeps things simple and allows you to keep your cool under pressure, thanks to its intuitive operation.

**Expandable:** The new system can also be adapted to even the most specific requirements and individual demands. It offers a wide range of output options, such as a job separator, an output tray and brochure module and, of course, various finishers that make time-consuming work a thing of the past. The impressive stapler, which can process up to 65 pages in one go.
